Greetings from the Sanskar the Rising School

I deem it my proud Privilege introduce you all to Sanskar the Rising School which offer both rich and conducive environment for the holistic, development of the child. This school is born out of the dream to provide an oasis which unfolds its treasure to a fabulous world of knowledge. The children of today need to be well equipped in order to face the growing challenges with courage. If the children are not well

equipped, they will be left behind in maddening race. Sanskar The Rising School believes in spotting inherent talent among the children and feeding it with all they need to become th best in the business. Sanskar The Rising School believes in the fact that an educational institution is a man making institute and it will continue to take the children to greater heights of knowledge and enlightenment with its vision. The curriculum of this designed that each and every child feels confident enough to take up any responsibility soon after the completion of his/her school education. With dedicated staff and enriching curriculum, we seek the co-operation of the Parents in ensuring complete development of the child. I am confident that the coming years will see more bridges over the gulf that separates as individuals and the child under the aegis of Sanskar The Rising School will be trained & groomed to cross many milestones and achieve excellence in all fields.

An enriching life is more than just academic success

Here, at Sanskar The Rising School, we aim at inculcating the spirit of "life philosophy" in your children. It consists in exceptional, intellectual, personal, emotional and social grooming so that they are fully prepared to face the challenges of life.

The right opportunities bring out the best in all children

World-class learning facilities apart, we offer an array of opportunities to find and shape the unique talents of our young achievers, so that they can carve a niche for themselves in the world.

Life's lessons are learned outside the four walls of a classroom

When children begin to look at learning beyond their classrooms, they develop a thirst for knowledge and a passion for excellence. Every child that walks through the portals of Sanskar The Rising School is nurtured and groomed in a manner that would turn him into a model citizen of tomorrow.

By working together as a team, we could make the desired difference!

Discovering hidden abilities and skills in your child

We believe that there is an artist, musician or sports person hidden in every child, and at Sanskar The Rising School, we strive to discover this potential to be harnessed by a methodology of teaching which is best explained through the four stages of schooling a child goes through.

Courses Offered :

A sound academic programme is the heart of any educational institute. Keeping in view the NCERT and CBSE curriculum, we have developed a broad based and challenging academic programme giving students ample opportunities to explore, experiment and learn, thus preparing them for a rapidly changing world.

Teaching Methodology :

Kindergarten

A stage when your toddler is curious about everything around him. At the kindergarten level, we follow the integrated Montessori approach. This approach seeks to sensitize toddlers to the learning environment, by reaching out to their intelligence and understanding their unique talents. Toddlers are quick to learn things through their interaction with the environment around them. Which is why, we introduce experiential learning at this early stage itself. This nurtures their curiosity and helps develop their cognitive and analytical skills.

Primary School (Grade I-V)

A stage when your child starts to learn new concepts and ideas Primary School is when children begin to learn concepts that form the basis of their understanding of life. This is the time when they need to be eased into comprehending and grasping theoretical ideas that can be stored for future reference. So before they are taught anything, first, they need to learn how to learn. The primary school classroom looks more like a curiosity studio-with interactive learning aids, colourful display boards, a class library and activity zone. The well-ventilated and brightly lit classrooms are equipped with comfortable and ergonomically designed seating arrangements. Academic development apart, they begin to recognize and build their natural talents in our scientifically designed sports facilities and fine arts studios.

The Middle School (Grade VI-VIII)

A stage when your child is hungry for knowledge Once children are given a taste of knowledge, their curiosity and yearning knows no bounds. They seek answers to all their questions. The Middle School & Secondary School at Sanskar The Rising School is abuzz with activities. Well-qualified and experienced mentors help instil a love for subjects,

middle school

07

and encourage them to have an investigative mind to explore the many knowledge banks that open up. Regular assessments and assignments help optimize the learning experience, and parents are kept informed to help guide the children towards positive learning.

The Secondary School (Grade IX-XII)

In this section education is imparted to the students of classes IX-XII with enhanced and upgraded laboratories for Biology, Chemistry, Physics, Language, Math, Commerce, Computer Labs and all other resources - all designed to bring out the best in the students.

Admission Rules :

A child is admitted to the Nursery Class if he/she has completed the age of three years. The Application for the Admission must be accompanied by a Birth Certificate.

- For the Students seeking admission to higher classes, he/she has to pass the Admission Test and Interview with School Leaving Certificate duly countersigned by the Education Officer.

- The Admission of a child means complete acceptance by the parents/guardians of all the School Rules and Regulations in force or as amended from time to time. School Rules are subject to change at the discretion of the School Management.

Mode of Assessment :

The School has a system of Continuous and comprehensive evaluation. There are formative and summative tests up to class XII. Cyclic Tests and terminal tests are held on regular basis to assess the level of understanding of each and every student. The parents are regularly updated about the performance of their wards. Each progress report contains the following information.

- Target grades for each individual
- Current level of attainment in each individual subject. A child is assessed as per the following criteria.
- Attitude to learning, acknowledged by a number of indicators including
- Attendance & Punctuality.
- Performance in physical activity.
- Completion of assignments.
- Number of grades gained

Faculty :

To achieve its objective, Sanskar The Rising School has a meticulously picked team of committed, enlightened and zealous teachers who are determined to make the process of teaching an interesting, and innovative endeavour that makes learning fun. We truly believe that our staff with the right blend of experience, enterprise and communication skills is our strength.

All the teachers have the special qualities i.e. patience and understanding that distinguishes a good teacher from the ordinary. They are dynamic, relaxed and enthusiastic with the ability to create a friendly atmosphere in which the child can express himself and learn. Teachers, as facilitators, guide and counsel & encourage the development of each child by providing security and warmth, emphasizing self-discipline more than authority and encouragement rather than punishment.

Transport :

The Institute has its own fleet of specially designed buses and Vans. Each bus is equipped with First-Aid facilities along with emergency contact details. Bus Fares will be charged separately depending on the place of pickup.

11

Library:

The School believes that Library plays an important role in shaping the lives of the students. Sanskar The Rising school is proud to have well equipped library of its own. Having realized the importance of library in an educational institution, it stores more than 5,000 books of different subjects. To add to this, the library subscribes more than 10 dailies, magazines and journals. The students use library with keen interest.

CLUBS

Clubs & Houses

The school lays stress on curricular activities. To promote higher learning the school has set up different clubs & houses.

(a) Science club:

Its objective is to popularize and create interest in scientific learning. It also celebrates "SCIENCE WEEK" every year with Seminars and quizzes.

b) Literary Club:

The aim of the club is to develop creative writing in English & Hindi. Original writings are selected and read out by the authors themselves before an audience in the assembly. Debate and elocution competitions form integral part of our school curriculum. Competitions are held at regular intervals.

(c) IT Club:

The School provides with all modern tools of Information technology and the students make fullest use of it during the club activities.

(d) House :

To instil in the minds of the students a sense of responsibility and team spirit, all the students are divided into a HOUSE system. Accordingly, all belong to any one of the following Four Houses named Red, Blue, Yellow & Green. Details of all the activities are scheduled in the monthly planner.

All the intra school co curricular competitions are held either class wise or group wise. The points won by the students is accrued to the houses they belong to

Sanskari
