myilestone APP

Mylestone is a comprehensive educational solution till K8, catering to students, teachers, parents and the school management. The curriculum ensures that students become active participants in the learning process, instead of just being passive recipients of information. The Pros provided by the milestone app for student and parents are mentioned below.

In Order to gain the above mentioned content students and parents are requested to collect their User ID and Password from their respective class teachers.

Activities Corner

Dear Students as you are aware that we always keep academics as our priority however, it is also important to add little activities and fun in learning for a healthy brain. We have planned Two activities for our students and parents.

1) Pravesh Utsav on 3rd July 2023, as this will be our first day in school after long summer vacations, we have clubbed this function with celebration of Guru Purnima we will celebrate these function initially by applying Tilak on our forehead (here after this will be our daily routine), after that our Principal mam will share knowledge about this particular day and its importance in our life.

2) Parents Orientation on 29th July 2023, In this we request parents to come in the school for a introduction with our staff and management, further in this we will explain our plans and strategies for the session 2023-24.

SHRI GURUKUL SR SEC SCHOOL APP

In the traditional schooling system, the interaction between teachers and parents was limited to parent-teacher meetings or other major school events. Parents were not actively involved in the daily classroom activities. Teachers too faced limitations in providing feedback to the parents on a regular basis.

However, this has changed as parents are now more concerned about their child's learning outcomes and wish to participate in the process actively. Parent-teacher apps have made this easy and teachers can now keep the parents updated about students' performance or progress more frequently.

Building a strong relationship between parents and teachers by encouraging active communication has never been this easy.

We have introduced Shri GurukulSr Sec school App. (available at google play store) We request our Parents and Students to collect there User Id and password from their class teacher.
